Data Analyst | SQL | Power BI | Python | AWS

PROFESSIONAL SUMMARY

Data Analyst skilled in SQL, Power BI, Python, Excel, and DAX with experience in dashboard development, data visualization, EDA, and reporting automation. Experienced in transforming raw data into actionable business insights through KPI tracking, visualization, and data modeling. Microsoft PL-300 Certified.

TECHNICAL SKILLS

Data Analysis & Visualization: Power BI, DAX, Power Query, Microsoft Excel, Data Visualization, KPI Reporting

Programming & Databases: Python (Pandas, NumPy, PySpark), SQL (MySQL), Apache Spark, Spark SQL

Data Analytics Concepts: Data Cleaning, EDA, Dashboarding, Data Modeling, ETL, Reporting Automation, Distributed Data Processing

Tools & Platforms: Git, GitHub, Streamlit, AWS Cloud Practitioner

PROFESSIONAL EXPERIENCE

Data Analysis Intern | Technowgreen Solutions Pvt. Ltd, Pune

June 2024 – July 2024

- Cleaned and preprocessed 10,000+ records, removing duplicates and null values to improve data accuracy by 25%, reducing downstream reporting errors
- Performed exploratory data analysis (EDA) to identify seasonal trends and usage patterns, informing 3 key business recommendations presented to project leads
- Built Power BI dashboards tracking KPIs, enabling the team to cut weekly reporting time by ~30%
- Applied data mining techniques (clustering, aggregation) to extract actionable insights, directly contributing to on-time project delivery

PROJECTS

Cryptocurrency Market Analysis Dashboard | Python, Streamlit, Prophet, Pandas

Github link : <https://github.com/AtharvaPKhachane/Crypto-Market-Dashboard>

Live Demo: <https://crypto-market-dashboard-mvxhmcn9xdig2kmalvdm3s.streamlit.app/>

- Built a real-time data pipeline using CoinGecko API ingesting 500+ data points/day into a MySQL database for 10 cryptocurrencies
- Developed an interactive Streamlit + Plotly dashboard visualizing KPIs, live price trends, volume spikes, and market cap comparisons
- Implemented time-series forecasting with Prophet achieving 85%+ directional accuracy on 7-day price predictions for Bitcoin and Ethereum
- Wrote SQL queries to extract and analyze cryptocurrency data from MySQL database

Sales Performance Dashboard | Power BI, DAX, Excel

Github link : https://github.com/AtharvaPKhachane/Sales_Performance_Dashboard

- Designed and published interactive Power BI dashboards tracking revenue, MoM growth, regional performance, and product-level KPIs
- Wrote 15+ DAX measures to compute rolling averages, YoY variance, and dynamic targets, reducing manual Excel reporting by 40%
- Enabled drill-through filtering across 5 dimensions (region, product, time, rep, channel), cutting ad-hoc analysis time from days to minutes

Global Retail Sales Analytics Dashboard | Python, SQL, Power BI, DAX

Github link : <https://github.com/AtharvaPKhachane/Retail-Sales-Analytics>

- Built an end-to-end analytics solution using Python, MySQL, and Power BI on 51K+ global retail transactions.
- Designed 4 interactive dashboards covering executive KPIs, customer analytics, product performance, and regional market insights.
- Created DAX measures for revenue, profit, profit margin, customer count, order analysis, and profitability tracking.
- Performed data cleaning, feature engineering, EDA, SQL analysis, and dashboard development to identify revenue drivers and business growth opportunities.

Smart Precision Farming System | Python, Pandas, scikit-learn, SQL

Github link : <https://github.com/AtharvaPKhachane>

- Analyzed soil and environmental datasets across 5 crop types to build a recommendation engine with 88% crop-match accuracy
- Developed ML-based prediction logic for irrigation scheduling, estimating 20% water-usage reduction vs. manual methods
- Built a GUI-based desktop tool providing real-time agricultural decision support for crop yield and irrigation planning

CERTIFICATIONS

Microsoft Certified: Power BI Data Analyst Associate (PL-300)

Microsoft: Power BI Data Analyst Professional Certificate (Coursera)

AWS: Cloud Practitioner Essentials

Accenture: Exploratory Data Analysis (Forage)

Databricks Associate Developer: Apache Spark with Python (Coursera/Packt)

EDUCATION

B.Tech in Computer Science

Vishwakarma Institute of Information Technology, Pune

2022 – 2026
